

# ***Personal Code of Professional Conduct***

**Regarding Standards for Confidential Communication:** No information about any client will be discussed or shared with any third party without written consent of the client or parent/guardian if the client is under 18; however, as a licensed professional, I am obligated to report known and suspected abuse, sexual predators and pedophiles, threats of suicide or responding to subpoenas, to the proper authorities.

**Regarding Conflicts of Interest:** My professional duty will be to provide my clients with the services my client pays me to deliver as listed on my website under "Description of Services." Should I refer my client to another professional or a natural therapies colleague to continue or enhance their care, I will not accept, nor would I expect any compensation from said professional for the referral of services.

## **Regarding Professional skills and knowledge required/Professional**

**Development:** I will continue to stay abreast of evolving language and trends in my natural therapy profession through the continuing education process of courses, books, and workshops. I will refrain from diagnosing, treating, curing or attempting to cure any medical, physical, emotional, mental or psychological condition, disease or disorder of any kind. Instead, I will work with my Spiritual gifts to offer guidance from their Spirit Helpers to allow my clients to choose to discover how to heal themselves.

**Regarding Appropriate Behaviour toward Clients:** At all times and in all places, I will speak, act and use my Reiki hand placements and touch appropriately and professionally.

**Regarding Ethical Business Practices:** As a professional in my field, I will carry the appropriate certificates and licenses to remain in compliance with local, Provincial and National laws and standards. I will treat my clients with compassion, honesty and sincerity, always choosing to do the right thing when faced with sharing information that could improve their quality of life, should they choose to listen to their Higher self before acting. My behaviour, holding this position of trust, will always include appropriateness, professionalism, and truthfulness.
